ADAPTER SYSTEMS
BIKE ACCESSORIES

KLICKfix®

www.klickfix.com

INGENIOUS IDEAS · MADE IN GERMANY

When two product developers with a mutual love of cycling could not find a well-working spoke wrench that was also ergonomic and affordable, they decided to solve the problem themselves. Spokey, Rixen & Kaul's first product was born, and its now iconic design can be found in toolboxes and bike shops around the world. With its combination of function, clear design and durability, it embodies the core values that still shape Rixen & Kaul products to this day.

With a first success under its belt, Rixen & Kaul turned its focus to the attachment of bicycle accessories and gradually developed the KLICKfix line of products: a comprehensive system of quick release adapters and accessories that allows attaching everything from baskets to bags and cell phones to a bicycle and removing it with the press of a button. Today, KLICKfix is the most widely used quick release system for bicycles, with an unmatched variety of accessories from Rixen & Kaul and other renowned brands.

To meet our high quality demands, we design and manufacture all adapters at our plant in Germany. This way, we can control the entire process in-house, from the initial idea to prototyping, mould making and assembly of the finished product.

RIXEN  KAUL

Variants & accessories

Handlebar Adapter

This adapter is the most widely used quick release for bicycles. Advantages:

- + Extremely robust body thanks to glass-fibre reinforced plastics
- + Ingenious security cable prevents the adapter from leaning downward on the handlebar, 7kg max.
- + Adjustable to suit every stem shape and desired inclination
- + Fully compatible with old and new accessories
- + Multiple variants for different bike types, handlebar diameters and alternative mounting positions

HANDLEBAR ADAPTER CLAMP

Extra Clamps for Klickfix Handlebar Adapter or Handlebar Adapter E. For different diameters.

- 0211F** 10 pcs Ø 22-26mm, standard
0211GP 1 pair Ø 31,8mm, oversize
0211IP 1 pair Ø 35mm, extra oversize

DISTANCE SET 5mm

Slightly increases the distance to the handlebar when only little more space is needed.

0211DI

DISPLAY SPACER 2x14mm

Allows installation of the handlebar adapter in conjunction with **YAMAHA** and **GIANT** E-Bike Displays by increasing the distance between the display's clamps.

0211DS

DISTANCE SET E 25mm

Increases the distance between the handlebar adapter E and the handlebar by 25mm, creating more room for cables and to operate the KLICKfix button if the display is in the way. Longer screws and longer steel cable enclosed.
0211DE

DISTANCE SET E 90°

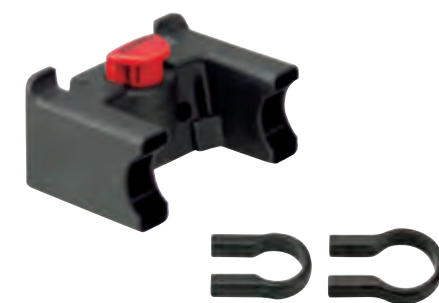

An ideal solution for combining the Handlebar Adapter E with the Cobi system or when a lower mounting position below the handlebar is desired. The maximum load of 7kg remains unaffected by using the distance set. The light and speaker of the Cobi system can remain installed, but installing an accessory will affect illumination.
0211DC

HANDLEBAR ADAPTER

The basic model with normal width and patented security cable.

- 0211** for Ø 22-26mm
0211O oversize, for Ø 31,8mm
0211U universal, incl. 2 pairs of clamps for Ø 22-26mm + Ø 31,8mm

HANDLEBAR ADAPTER – WITH LOCK

If you wish to leave accessories safely on your bike, choose the version with lock, max. 7 kg.

- 0211L** for Ø 22-26mm + lock
0211LU universal, incl. 2 pairs of clamps Ø 22-26mm + Ø 31,8mm + lock

DISTANCE SET 43mm

Ensures that the adapter fits to curved handlebars and creates extra space for brake cables. The integrated adjustable inclination is practical for adjustable stems.

0211V

HANDLEBAR ADAPTER E

Wider version of the classic KLICKfix adapter that can be mounted without getting in the way of e-bike displays. The adapter ist

- 0211EB** universal, incl. 2 pairs of clamps for Ø 22-26mm + Ø 31,8mm

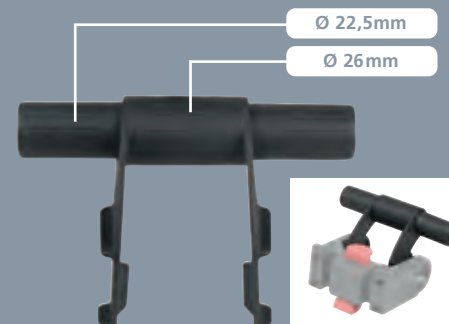

- 0211EBL** universal, incl. 2 pairs of clamps for Ø 22-26mm + Ø 31,8mm + lock

MULTI CLIP PLUS

0211 MP

Creates more space on handlebars. Extendable space on both sides from 4cm up to 11,5cm, e.g. for further accessories.

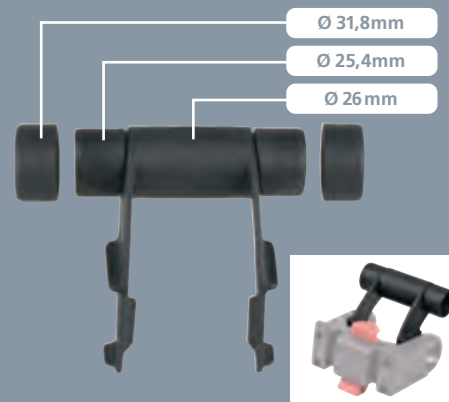

Ø 22,5mm

Ø 26mm

MULTI CLIP E

0211 ME

Specifically designed to carry e-bike displays and adapter with accessories in the center position. Extensions on both sides from width 40mm to 80mm.

Ø 31,8mm

Ø 25,4mm

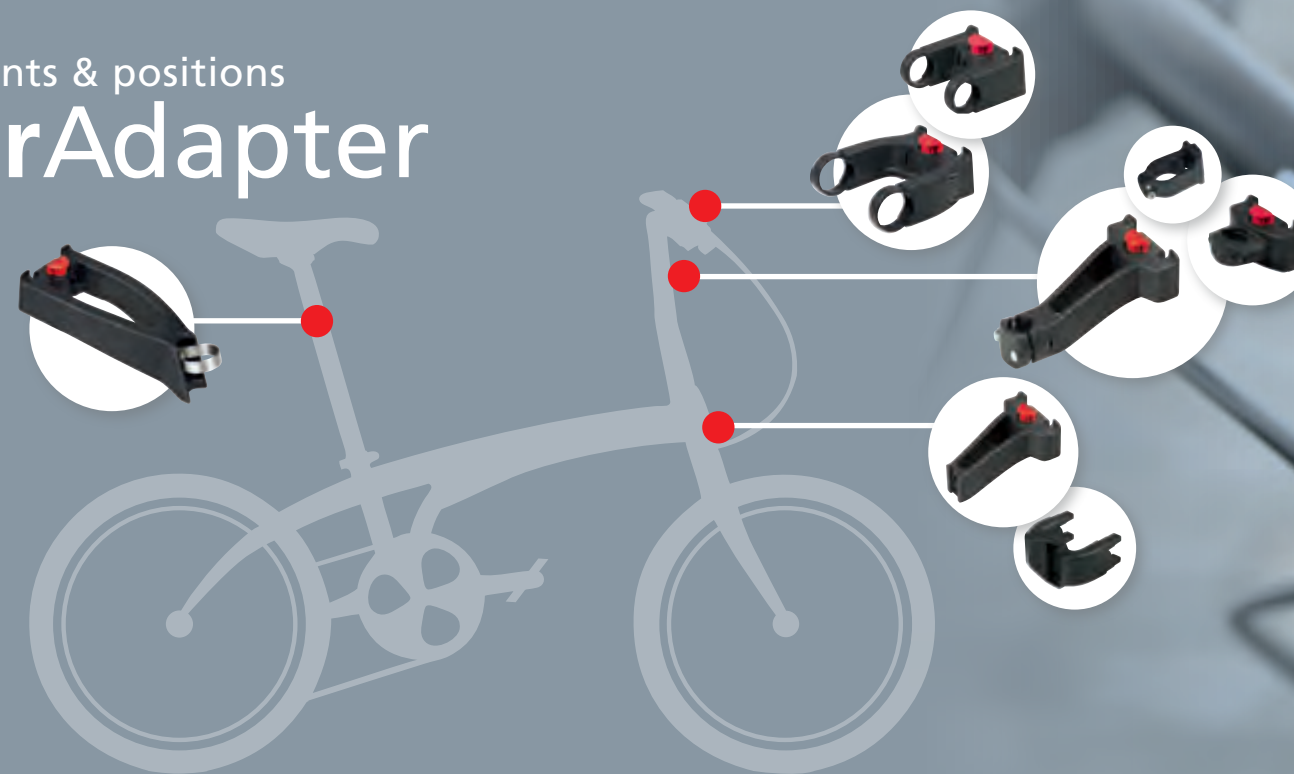

Ø 26mm

One system, many variants & positions

HandlebarAdapter

The variable handlebar adapter system offers several attachment options that allow installing the adapters at various locations on the bike. This way, the large accessory range can be used on the handlebar, seat post, stem, head tube or on vertical tubes. Various clamps and spacers provide even greater versatility.

The Extender allows attaching the handlebar adapter and its various accessories to the seatpost. Using the Extender frees up space on the handlebar and makes sure that your vision and the bike's steering are unobstructed. We especially recommend using the Extender for backpacks and matchpacks (max. 5kg).

EXTENDER FOR SEATPOST

The Extender allows you to use all handlebar accessories like bags, backpacks and baskets on the seat post. Easy mounting with stainless steel strap on seat posts of Ø 25-32mm, 5 kg max.

0211XSET with adapter

0211X without adapter

0217CSO Oversize Clamp Ø 32-36mm

HANDLEBAR ADAPTER CADDY

For mounting on vertical tubes Ø 25-36mm. Robust body of glass fibre reinforced polyamide. Especially well suited for foldable bikes, scooters, golf carts, wheelchairs, etc., max.7kg.

0211 CA

HANDLEBAR ADAPTER FOR STEM

Adapter version that can be mounted on stems Ø 22,2-25,4mm. This position allows the adapter to remain independent of the inclination of adjustable stems and leaves more space on the handlebar. The bracket can be turned upside down, permitting a second possible mounting position. Optional with lock. max. 5 kg.

0211 VO without lock

0211 VOL with lock

FRAME BRACKET FOR HEAD TUBE

Made to be combined with the KLICKfix handlebar adapter. Only for bikes with special head tube threads (depth gauge 30mm) max. 5kg.

0211 R

HANDLEBAR ADAPTER FOR HEAD TUBE

For bikes with integrated threads (depth gauge 16/30mm). The steering remains completely independent of accessory weight. Its shape increases the distance to the front wheel, so that many bags and baskets can be used even on small frames, max. 5 kg.

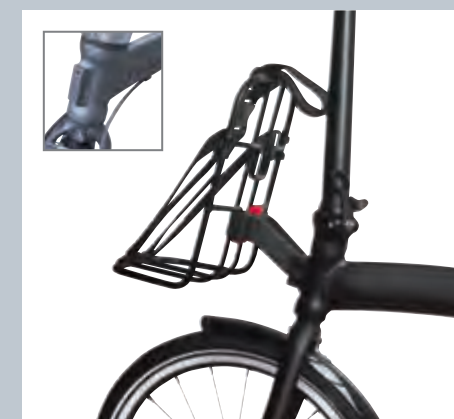

0211 ST

ADAPTER SOCKET FOR AHEAD STEMS

Allows using the headtube adapter 0211 ST on bikes equipped with Aheadset. The socket can be installed on steerer tubes Ø 28,6mm. The rings height is 22mm. The adapter and socket can be flipped to achieve different mounting positions, max. 5 kg.

0211 MSA

We're throwing the adapters out !

Starting in September 2020, Handlebar Adapters will no longer be bundled with our handlebar bags. Instead, shops and customers will have complete flexibility in choosing the correct adapter for an increasingly diverse range of bikes.

DAYPACK BOX

Touring handlebar bag, complete with many practical features. **Solid inner frame** made of fibre glass reinforced polyamide. Large front pocket, compartment for documents, adapter plate on back side, detachable rain hood and shoulder strap. The transparent map holder is also completely detachable via snap fasteners. 26x22x16cm, 8 L, 800g
02155

DAYPACK

Lightweight touring bag, with KLIICKfix aluminium frame in side sleeves. Large front pocket, compartment for documents, detachable rain hood and shoulder strap. The removable, transparent map holder is attached with snap fasteners. Extra compartment for raincover at the back. Bag can be folded after use. 26x22x16cm, 8L, 650g
02145

AVENTOUR COMPACT

Compact yet lavishly equipped handlebar bag. The waterproof welded map- and smartphone case can be folded into different formats up to 17,5 x 12 cm and is firmly attached with a combination of Velcro and snap fasteners. The bag comes equipped with reflectors, a front pocket with rain cover, 2 mesh pockets, shoulder strap, 3 inner pockets and a document compartment. 20 x 18 x 17 cm, 3L, 500g
0272AC

AVENTOUR COMPACT CITY

Compact and well thought out handlebar bag with integrated smartphone case. Phones up to 9x16cm can be inserted from inside and can be operated through the transparent foil. Equipped with a shoulder strap, reflector, front pouch, and net pocket inside the lid. 20x17x18cm, 3L, 500g
0272ACC

AVENTOUR PRO

Top model of the Aventour line. Its unique lid with integrated locking mechanism can be opened and closed single-handedly. The waterproof welded map- and tablet case can be folded into several different formats (up to 24x24cm) and allows flexible positioning on top of the lid. The case's Velcro fixation encompasses the lid on two sides, resulting in an extremely stable and secure fit. Equipped with reflectors, a front pocket with rain cover, 2 mesh pockets, shoulder strap, 3 inner pockets and a document compartment. 27x20x19cm, 6,5L, 920g
0274AP

AVENTOUR SPORT

Light handlebar bag with transparent compartment for smartphones and maps up to 9,5x20cm. One of the two spacious side pockets can store a water bottle – secured with a drawstring – making this bag very useful on e-Bikes without bottle cages. Equipped with inner pocket, shoulder strap, raincover and reflector. 30x15x22cm, 7L , 700g
0270AS

AVENTOUR

Spacious and richly equipped handlebar bag. The waterproof welded map- and tablet case can be folded into different formats (up to 24x24cm) and is firmly attached with a combination of Velcro and snap fasteners. The bag comes equipped with reflectors, a front pocket with rain cover, 2 mesh pockets, shoulder strap, 3 inner pockets and a document compartment. 27x20x19cm, 6,5L, 820g
0271A

AVENTOUR CITY

Spacious and generously equipped handlebar bag with smartphone compartment in the lid. For smartphones up to a maximum of 9x18cm. With 3 inner pockets, reflector, front pocket, 2 mesh pockets, shoulder strap and rain hood. 27x20x19cm, 6,5 L, 670g
0271CGR

BAGGY MINI

Our smallest and lightest handlebar bag with 2-way zipper. Thanks to its slim shape, this bag can be used even on strongly curved handlebars.

20 x 15 x 9 cm
2,5 L, 300 g
0270 MS

BAGGY

An economical, compact handlebar bag for medium space requirements. Made of high-quality polyester, with reinforced shape. Main compartment can be widely opened. Extra compartment inside. Practical fabric carrying-loop covers the two-way zipper.

22 x 19 x 12 cm
5 L, 350 g
0270 S

BAGGY PLUS

Biggest Baggy with larger capacity, carrying loop and additional net pockets at the sides. Made of high-quality soft polyester. Extra inner compartment with zipper for valuables.

27 x 22 x 14 cm
8 L, 400 g
0270 PLS

SUNNY

Lightweight, full-size map holder for every common map format. Its horizontal position minimizes the impact of wind. The removable, transparent hood protects the map from dirt and rain. Sunny automatically locks into the handlebar adapter.

27 x 27 cm
200 g
2700

SMARTBAG TOUCH

Modern and compact shoulder bag with integrated Smartphone case up to 18x9cm. The bag's flap can be fastened to the stem, thus ensuring that the phone is always in view while riding. The Smartphone is still usable with the transparent cover on. Equipped with a front pouch, inner pockets and a shoulder strap.

21 x 16 x 8 cm,
1,8 L, 400 g
0275PS black

21 x 16 x 8 cm,
1,8 L, 400 g
0275PGR grey

ALLROUNDER XS

Small, stylish and superbly well-equipped. Main compartment with buckles, front compartment with zipper, both with various inner pockets. Comfortable, detachable shoulder strap with padding. Thanks to its slim shape, this bag can be used on curved handlebars.

13 x 18 x 12 cm, 1,5 L, 350 g
0271XS

ALLROUNDER MINI

Compact, well-organized bag. With handle, detachable shoulder strap, main and front compartment with 2-way zipper, one net- and one phone compartment at the sides. Thanks to its slim shape, this bag can also be used on curved handlebars.

15 x 18 x 12 cm, 3,5 L, 450 g
0272S

SMILE

Slim handlebar bag with foam-supported shape. With raincover, shoulder strap and handle. Main compartment can be widely opened. Flat inner and large front compartment. Thanks to its slim shape, Smile can be used even on strongly curved handlebars.

20 x 12 x 21 cm 3,5 L, 500 g
0273S

ALLEGRA

Elegant shoulder bag with a large main compartment and front compartment with flat pouch inside and zipper. Net compartments on both sides. With its Adjustable shoulder strap the Allegra turns into a fashionable shoulder bag when exploring the city without bike.

33 x 22 x 14 cm, 5 L, 600 g
0275S

ALLEGRA FASHION

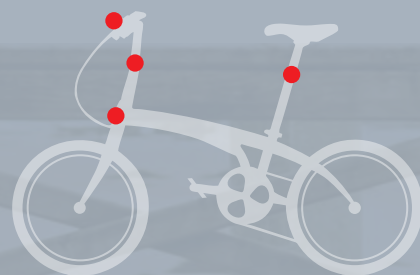

Fresh design with premium features. The adapterplate hides beneath a padded textile cover, transforming the functional handlebar bag into a chic handbag with carrying strap. The pouches, front compartment with zipper and side cell phone compartment provide perfect storage space.

0275FS black

0275GR grey

The variable Handlebar Adapter System offers several attachment options that allow installing the adapters at various mountpoints on the bike. An alternative mounting position can be particularly useful for backpacks or the Vario rack. Choose the adapter that best fits your bike and needs.

Klickfix

ALLROUNDER TOURING

A big model in our product range with solid inner frame. The only handlebar bag where a lightholder can be attached at the bottom. With several inner and outer compartments, shoulder-strap, raincover and reflector. Separate section for maps and cover inside the bag. The cover can be folded into 2 different formats and can be fixed onto the slanted top in various positions. The included lightholder can support up to 2 battery lights and easily attaches to the adapter plate at the bottom of the bag.

26 x 24 x 16 cm, 9L, 1100g
02745

ULTIMA

Waterproof welded handlebar bag with fold-out compartment for smartphones. The front pocket with net material for air access keeps smaller items within easy reach. The transparent map holder with Velcro strips is easily attached to the lid. An inner compartment with lining contains pouches and a large net compartment inside the lid. With detachable shoulder strap.

26 x 24 x 17 cm, 8L, 1100g
02345GR

VARIO RACK

Multifunctional rack for transportation of bags, laptop cases and backpacks on the bike. Removable in seconds when not needed. Extremely light weight aluminium design. The Vario Rack can be positioned in 2 different heights on the adapter. The straps possess a reflector and can be secured easily by one central closure. Clip-on-hooks allow easy variation of straps. The design of hooks is adapted for all T-crossing of the skeleton rack structure. max. 5-7 kg (depending adapter)

21 x 32 x 17cm, 450g
19125

MATCHPACK

A reworking of the classic duffel bag – versatile and functional for recreation, shopping, or trips to the beach. An integrated steel frame supports up to 7 kg. High usability through the variability of its volume and thoughtfully designed details.

Ideal on handlebar or seatpost. The shoulder strap can be connected to differently positioned eyelets.

31 x 46 x 24 cm, 24L, 900g, max. 7 kg
03015

FREEPACK SPORT

Say goodbye to riding with a sweaty back. This sportive click-on backpack is ideal for mountain bikes and all bikes without carrier in combination with Extender. The integrated adapter plate allows for a slanting backpack position that gives the biker more space on the saddle and is not noticeable when the backpack is worn. With several zipper- and net-compartments, backlight holder, raincover and extra compartment adjustable for helmet.

30 x 40 x 20 cm, 24L, 1200g, max. 5kg.
02765

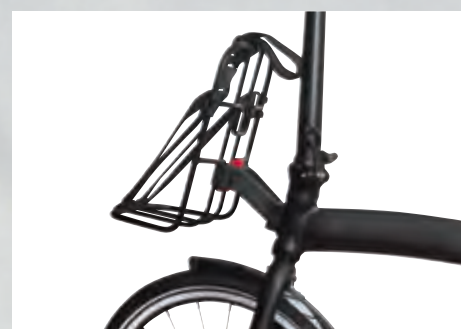

FREEPACK CITY

The every-day companion in the city. Outer and inner compartments with zipper, side compartments, separate inner compartment for valuables and adjustable shoulder straps with integrated cell phone bag. Clicks onto Extender.

The adapter plate allows a slanting backpack position that gives the biker more space on the saddle. The plate does not cause any discomfort when the bag is on your back.

26 x 38 x 15 cm, 18L, 1100g, max. 5kg.
0277GR

Shopper for handlebar or Racktime racks

SHOPPER FOR HANDLEBAR The Rixen & Kaul Shopper line up offers a fabric based alternative to meshed baskets. All Shopper models are made from robust fabric, are collapsible and feature a reinforced bottom and carrying straps. The Adapter is not included. Choose the ideal adapter version out of the handlebar adapter system that best fits your bike.

In combination with the handlebar adapter the solid steel bracket of all Shoppers reliably carries a maximum load of 7kg and prevents sensitive content from being crushed – so even flowers or sensitive content will arrive safely.

SHOPPER ALINGO GT – ONLY FOR RACKTIME® CARRIERS. With the rotating levers the Racktime Adapter fits to wide and narrow racktime carriers. Retrofittable lock for all Racktime adapters available.

BIKEBASKET GT

Light fabric basket with solid thermoform base and flexible carrying handles. The classic, slanted basket shape provides ample room for both saddle and rider. A drawstring cover makes sure that the contents stay in place and an inner zipped pocket provides room for small items. The stiffening plates can be removed so that the basket can be folded flat.

33 x 42 x 27cm, 21L, 990g (Racktime), 1170g (UniKlip), 10kg max.

- + Longitudinal, for carriers
- + Big volume
- + Flexible light carrying straps

CARRYBAG GT

Reisenthel's popular shopping basket is finally available for bicycles thanks to KLiCKfix. The padded carrying handle and 24L volume ensure comfortable shopping while the drawstring makes sure everything stays in place. A solid thermoform base and stiffening plates ensure stability and a zipped pocket on the inside provides room for small items. The stiffening plates can be removed so that the basket can be folded flat.

42 x 33 x 28cm, 24L, 1180g (Racktime), 1320g (UniKlip), 10kg max.

- + 9-16cm or 9-40cm width (depends on basket)
- + Works with integrated batteries
- + Compatible with spring clamps
- + Usable on V-shaped racks

The spring rod tension can be optimized by changing the hole position in the clip.

Huge rear baskets and Werkhause Radkiste

KLICKfix

WERKHAUSE RADKISTEN

While KLICKfix has been reliably connecting accessories to bicycles, Werkhause is known for clever home furnishings assembled with its patented connection system. Both companies have joined forces to introduce bicycle baskets that can be swiftly assembled with no need for tools. The baskets are made from waterproof birch wood from ecologically sustainable forestry, with a resilient coating. The baskets are shipped in space- and resource-saving flat packaging. All components are 100% made in Germany.

GTA MAXI BASKET – for carriers

0313K **KorbKlip (9-40cm)**

ideal for front racks

Adapter – only for Racktime racks

racktime

The KLICKfix/Racktime Adapter is the result of a successful cooperation of Tubus and Rixen&Kaul. The Know-how of both companies was used to combine high quality racks with a perfect fixing system for accessories. Place the accessory on Racktime and push forward until the adapter automatically clicks into place. To remove the accessory, push up on the red button and pull the accessory backwards.

Rotating levers for wide or narrow Racktime racks

remove adapter's feet for racks wider than 124mm

Retrofit lock allows arresting the Racktime button

- + Usable in combination with Racktime racks
- + Rotating levers for wide or narrow Racktime racks
- + Retrofit Lock available to arrest the red button
- + Secure four point fixation

RACKTIME LOCK

Allows arresting the button of the Racktime adapter and thus securing the accessory on the bike. Fits all racktime (snap-it) adapters.

0209RS

Racktime carriers are characterized by four holes in their cross braces that the adapter attaches to.

ADAPTER VARIANTS CITYBOX

Boxes, bags and textile baskets for carriers are contain the fixation variant. Thanks to the identical hole pattern at the bottom, accessories with UniKlip, Racktime or Snapit, GTA Coupling II or MIK Adapter without problems, if e.g. a new bike is used with another type of rack.

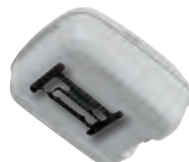

UniKlip – Universal quick release for diverse carriers with widths 9-16cm and Ø 8-16mm. Integrated anti-theft latch.

0847UK Box inclusive UniKlip
0212 UniKlip (retrofit kit)

Racktime Coupling – with detachable feed and rotating levers. Only usable on racktime racks.

0847R Box inclusive Racktime coupling

GTA Coupling II – for GTA Adapter plate. Combinable with GTA panniers, lockable.

0847K Box inclusive GTA Coupling II
0846H **NEW** GTA Coupling II (retrofit kit)

fix – universal system for permanent installation on virtually any carrier. Ideal for cyclists who want to leave the accessories permanently on the bike.

0847F Box inclusive fix mounting

CITYBOX

Citybox introduces yet unknown quality and functionality to bicycle boxes. The robust and rainproof box with integrated handle, reflector and high-quality lock offers secure storage for helmets, rain jackets and everything in between. By virtue of its offset hinge, the spacious Citybox can be opened completely even when installed on the bike without the saddle blocking the lid. The new Citybox replaces the existing model and is available in four mounting variants for quick release of permanent installation.

34,5 x 44 x 23cm, 2000g, 22L, 10 kg max.

cleverly combined GTA System

The GTA Adapter is an ideal solution for riders who want to combine panniers with bags, baskets or boxes. The accessories only need to be pushed forward to lock in and are prevented against theft by a central lock. To remove an accessory, simply press the release button and push the accessory backwards.

The GTA Adapter can be mounted on any carrier

Adjust pannier angle for more legroom

panniers and upper accessories are centrally locked

- + The adapterplate is usable on any rack up to 145mm width
- + Panniers with GTA rail can be connected to the side slots
- + Boxes, bags or baskets with GTA coupling are fixed in the upper central slot
- + The accessories are combinable or can be used separately
- + All parts are lockable by a central lock

KLICKfix

GTA MODUL

Upgrades Hebie carriers with the KLICKfix system. Baskets, boxes and bags with GTA coupling can be easily secured and removed with the press of a button. Once slid into the carrier, the GTA Modul will not inhibit the use of the spring clamp and still allows mounting panniers on the rack's rails. 5,3 x 24,5 x 2,3cm, 100g
0207

GTA COUPLING SET

With the retrofit coupling set, you can make your own boxes or meshed baskets compatible with the KLICKfix carrier system. It is simply mounted with screws at the bottom of the accessory. 75g, 10 kg max.

0845H

GTA MOUNTING SET E

Extra flat metal plates to enable installation of the GTA adapter where space is constricted. Especially suited for e-Bikes using carriers with integrated batteries.

0208ME

GTA ADAPTER

The plate is fixed with two solid brackets onto the carrier. Baskets, Boxes oder Topcases with GTA coupling are fixed on top. Bags with GTA rail are hung into the side slits. All accessories are lockable by a central key and to release by pressing the red button without efforts.

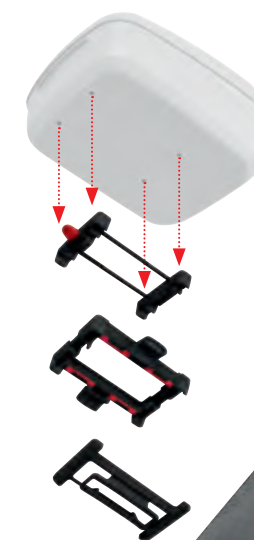

0208

GTA COUPLING SET II

For converting bags and boxes to the GTA system. Boxes and topcases equipped with the GTA Coupling II can be clicked into the GTA Adapter – simply by setting down the accessory on top of the adapter and pushing forward. All accessories are lockable by a central key. Thanks to the identical hole pattern at the bottom, accessories equipped with UniKlip, Rack-time, Snapit or MIK adapter easily convert to the GTA system. 21x12,5x2,5cm, 130g, 10kg max.

0846H

UniKlip

Fits all carriers

The UniKlip fixes bags and boxes on a wide variety of carriers. Adjust width once. Set down accessory – turn levers – done !

Hooks & Rails for Carriers

MODUL RAIL Professional pannier rail with adjustable hooks on aluminium profile. Automatic adjustment of the locking mechanism to carriers Ø 8-16mm. Depending on pannier model the rail can be completely removed or hidden.

KOMPAKT RAIL comfortable automatic adjustment on carriers with Ø 8-16mm. The hook position can be easily adjusted horizontally without tools. The shape allows the rail to be used on racks with integrated batteries or spring clamps. Lower rail with 360° rotating hook.

VARIO TOP HOOK with centerlock for carriers Ø 8-16mm. The reduced distance between the hooks enables Cita Top to be used in conjunction with racktime accessories on racktime carriers. Cita Top can also be attached when the carrier is fitted with a spring clamp.

VARIO E HOOK continuously adjustable short hook that fits virtually every carrier with Ø 8-16mm, even those with integrated batteries or spring clamp. Additional centerlock to secure the bag.

UNIVERSAL RAIL Adjustable rail with flexible handle for all carrier sizes. Comes with adjustable standard hooks that fit Ø 8/10/12mm and additional 16mm hooks. The Universal rail locks in automatically when it is set onto the carrier.

KOMFORT RAIL Classic rail with continuously adjustable hooks and locking mechanism for standard carriers Ø 8-13mm. The solid removable handle allows for comfortable, single-handed use.

backpack & pannier Freepack Switch

SWITCH...

On the bike, the shoulder straps can be secured in a fabric flap and fastened in front of the bag quickly and easily.

BETWEEN PANNIER...

When the backpack is used on the bike, the shoulder straps can be unhooked and stowed inside the lid's compartment.

AND BACKPACK...

The Modul Rail can be concealed behind the back panel and a fabric flap or completely removed.

FREEPACK SWITCH – for carrier

Effortlessly switch back and forth between pannier and backpack: Conceal the Modul Rail, pull out the shoulder strap and the pannier turns into functional backpack. With three front pockets, laptop compartment reflector and inside pocket.

31 x 42 x 18cm, 1200g, 18L, 7kg max.

- + Variable volume with roll closure
- + The Modul Rail can be concealed in seconds
- + Comfortable, adjustable shoulder straps, all around reflector

Shopping and city pannier with a new variable attachment system and refreshed look. With spacious main compartment, front and lid pocket, shoulder strap and rain cover. Can be combined with racktime topcases on the carrier. 30 x 35 x 16 cm, 1050g, 18-20L

0264KGR

NEW

- + Cita 2 with compact rail suitable for carriers Ø 8-16mm
- + Short hooks adjustable without tools by pressing the black button
- + Can also be used on racks with spring clamp or integrated battery
- + Lower rail with 360° rotating hook, for maximum flexibility
- + Combinable with Racktime accessories on Top

Adapter for seat post

Contour Max

Contour Max bags provide plenty of space on bikes without carrier. Due to their extra stable double frame and adapter with optimized support, Contour Max bags can be loaded up to a maximum of 3kg. Their longer shape enables a particularly good protection against mud and splash water.

The Contour Max adapter fits seat posts Ø 25-32mm. For oversize seatposts a clamp Ø 32-36mm is available. The Adapter is already enclosed in the Contour Max Bags.

Contour Max Adapter solo: 0217HOM

Klickfix

CONTOUR MAX SPORT

Sportive look and plenty of space. Roomy main compartment, side bags with additional pouches. Small bag at the rear side, reflector and light-holder. Elastic string for raincoat on the top. Bottom made of easy-to-clean vinyl material.

28x22x38cm, 10L, 880g
0217MAS

CONTOUR MAX TOURING

Elegant, comfortable bag for day-trips. Large side bags with zipper and additional compartments, on one side with net. Main compartment with 2-way-zipper, small compartment for valuables on inner side of cover. Bottom made of easy-to-clean vinyl material. Rear side with reflector and lightholder.

28 x 25 x 35cm, 9L, 780g
0217MAT

CONTOUR MINI

Compact, expandable bag with robust, detachable glass fibre reinforced bracket that allows even hard MTB action. Separate zipper-compartment on top and handle.

10x15/20x22cm, 2-2,5L, 250g

0216 S

CONTOURA

Compact bag with robust, detachable, glass fibre reinforced bracket. Especially well-suited for hard MTB action. Spacious main compartment, net-compartments on both sides, elastic string on top. Bottom made of easy-to-clean vinyl material.

12x15x22cm, 2L, 230g

0216 CS

CONTOUR

A simple and lightweight model, often used on racing bikes. Aerodynamic design. One main compartment with central zipper and reflector.

12x14x26cm, 3,5L, 380g

0217 S

CONTOUR MAGNUM (SA)

Komfortable model with elongated shape provides excellent protection against mud and water. Inner compartment, two side compartments, lid with net and extra compartment. Back side and bottom made of easy-to-clean vinyl material. With practical two-way zipper.

17x22x32cm, 6L, 500g

0217MS

0217MSA

CONTOUR MUDGUARD

Medium-sized model with additional inner compartment for change or key. Flip top with covered zipper. Washable vinyl bottom. With sturdy, detachable aluminum frame, light holder and reflector.

16x17x27cm, 4,5L, 400g

0217 PS

CONTOUR SF

This bag is ideal for small frames or low saddle positions. Main compartment with covered middle zipper. Additional zipper compartments for small items on both sides. Bottom made of easy-to-clean vinyl material.

15x14x28cm, 4L, 450g

0217 SF

CONTOUR SPORT

Roomy model featuring two side pockets with reflector stripes and a large, easily accessible main compartment. The elongated shape provides for plenty of stowage space and enables the bag to double as a mudguard. Includes a rain cover in a separate compartment and luggage strap spider on top. 18 x27 x30cm, 7L, 770g

0217CS

CONTOUR WATERPROOF (SA)

Waterproof welded Contour bag for all conditions. The large main compartment can be easily accessed through the lid and is sealed with a waterproof zipper. Additionally equipped with meshed pocket under the lid and practical Cargo net on top of the lid.

16x27x14cm, 4L, 640g

0217W

0217WSA

CONTOUR ADAPTER – Mounting on seatposts

The compact Contour Adapter is mounted via stainless steel clamp on seatposts with Ø 25-32mm. Oversize clamp for bigger diametres Ø 32-36mm available.

2kg max.

Contour bags are designed for bikes without a carrier and easily click into the adapter. Thanks to their elongated shape, all roomy Contour models offer protection against dirt and splash water. All Contour bags contain one of the two Adapter Variants.

CONTOUR SATTEL ADAPTER – Mounting on saddle

The Contour Saddle Adapter allows the usage of the Contour bags on the saddle. The increased space between bag and wheel is especially useful on 29" mountainbikes, full suspension bikes, small frames and bikes with hydraulic seatposts or as an alternative attachment for Contour bags on bikes with carbon seatpost. An angle adjustment ensures that the bag can be perfectly aligned independently from the saddle rails.

- + More distance of the bag to the rear wheel
- + Adjustable inclination angle of the pocket
- + Ideal in combination with dropper seat posts

2kg max.

adjustable $\triangle^{\circ}$

Your essentials under the saddle

SaddleAdapter

The compact KLiCKfix saddle adapter easily attaches to most sport saddles and fits all bags in the Micro line and the cable lock holder. The accessory locks automatically when slid into the adapter and can be released by pushing one of the red buttons.

An additional release button on the Micro bags' adapter plate allows releasing the bags single-handedly without needing to touch the adapter.

Adapter included 

KLiCKfix

**SADDLE ADAPTER
FOR CABLE LOCKS**

Quick release comfort with saddle adapter clamp for all cable locks Ø 6-10mm. Easy mounting on sports saddles. The clamp is simply fastened on the lock and fits into the saddle adapter or Mini adapter.

PhoneBags

with Quad Mini Adapter

PHONEBAGS · TABLETBAG Protective bags for smartphones and tablets in different sizes and models. Ideal for navigation – easy to see while riding and always within reach. The touchscreen can be operated through the transparent foil. The 360° rotatable adapter plate allows easy changes from vertical to horizontal orientation when clicked on.

NEW NAMES · FEWER MODELS · UPDATED SIZES We have completely revamped our Phonebag lineup for the upcoming season. Materials, sizes and the adapter have all been revised while the number of variants has been reduced. All models have been resized to accommodate modern smartphones. To achieve a clearly structured line up and to avoid any confusion with older models, all new Phonebags will also carry new names.

BETTER QUALITY · ATTRACTIVE PRICES The former variants Phonebag (plastic) and Phonebag Duratex (fabric) have been merged into the new Phonebag Light. This new fabric Phonebag will offer the same quality and longevity as the Phonebag Duratex, but at a more attractive price point.

QUAD MINI ADAPTER All new models will feature the Quad Mini Adapter that has already proven itself conjunction with the Phonepad. Easily operated, but needing less space and with more modern looks and optional black coating for the steel band.

Quad and Quad Mini accessories are 100% compatible.

Klickfix

TABLETBAG DURATEX S

Big flat protective cover with flap and Velcro fastener made of robust, waterproof welded fabric. Ideal for navigation – easy to see while riding and always within reach. The touchscreen can be operated through the transparent foil.

Gopro mount CamOn

CAMON

Introduces a flexible and secure way to attach a GoPro camera to bikes. Only the small MiniBlocs that the adapter connects to need to be installed on the bike. The adapter can be attached in a second and removed equally fast by pressing one of the red buttons, allowing quick switches between different mounting positions on the fly. With CamOn the camera can be panned, tilted and secured in the desired position

Camon set: 1 CamOn + 2 MiniBlocs + 1 MiniBloc GP Plate

CAMON

- + click on and detach quickly
- + operable even with gloves
- + fits to GoPro adhesive plates
- + for Ø 15-60mm
- + pan 360° and tilt

0210CO CamOn set

QUAD MINIBLOC

- Attaches CamOn various tube profiles Ø 15-60mm.
- Easy and sturdy installation with stainless steel strap

0210MB MiniBloc solo

MINIBLOC GP PLATE

- Compatible with GoPro hardware like chest mounts and adhesive plates for flat and curved surfaces like helmets and boards

0210COM set with 2 pcs.

QUAD ADAPTER

Quad Adapter allows safely attaching accessories to your bike. The stainless steel strap facilitates fixation to Ø15-60mm – even on oval shapes. The robust glasfibre material carries up to 1kg. Comfortable one-hand operation. Easy intuitive clic on in 90° steps. Remove accessory by the simple press of either of the two release buttons, 1kg max.

0210

- + Bigger shape with 2 release buttons
- + Practical one-hand operation
- + Intuitive clic on in 90° steps
- + O-ring damper prevents rattling

QUAD MINI ADAPTER

Quad Mini Adapter – easily operated, but needing less space and with more modern looks and optional black coating for the steel band. Fits tubes with Ø 15-60mm – even on oval shapes. The robust glasfibre material carries phonebags and other accessories up to 1kg.

0210M

- + Compact small shape, with 1 release button
- + Practical one-hand operation
- + Intuitive clic on in 90° steps
- + O-ring damper prevents rattling
- + Including black shrink tube for the strap on black handlebars

Klickfix

Universal smartphone mount PhonePad

PHONEPAD – QUAD MINI

Universal smartphone mount suitable for all smartphone models. The smartphone is held securely on a large padded base. Buttons and charging port remain freely accessible and the camera is concealed as well. Can be turned 360° – easy to switch between vertical & horizontal orientation when fixed on the bike. Two mounting variants available. 6 x 3,8 x 11cm, 80g, 250g max.

2720
0210M

PhonePad incl. Quad Mini Adapter
Quad Mini Adapter solo

- + Solid installation with adapter on vertical and horizontal tubes Ø 15-60mm
- + Remove and click on the smartphone with one hand in seconds

PHONEPAD – LOOP

2721 PhonePad with velcro band

- + Slip resistant hook and loop fastening on vertical & horizontal tubes Ø15-60mm
- + Allows changing the mounting position or the usage on different bikes
- + no Adapter remains on your bike

Small, round & multi-functional MiniAdapter

You can mount the head part of the adapter in 90° steps, allowing you to attach an accessory in an upright or horizontal position on the frame, handlebar, stem or seat post. Easy UNIFIT-mounting with stainless steel strap on Ø 15-60mm.

UNIFIT is a mounting system for bike accessories. It fits any diameter up to 60mm and ist easily mounted even onto oval frames. The stainless steel strap can be cut to the desired individual length. No risk of scratching even sensitive frame surfaces, thanks to rounded strap edges.

MINIMAP I

Handy map-holder completely made of plexiglass, easily mounted onto handlebar or stem using the Miniadapter. All map sizes simply slide in. 9x15 cm, 90g

2703

FREELINER

Map holder with swivel coupling for quick turns from horizontal to vertical position. Perfect for all touring books and map formats up to 24,5x12,5cm. Sturdy transparent raincover protects maps from wind and rain. 110g

2705

MINIMAP II

Medium size map-holder completely made of plexiglass, easily mounted onto handlebar or stem using the KLiCKfix Miniadapter. All map sizes simply slide in. 12x25cm, 150g

2704

COMPACT

For everyone who does not need a large handlebar bag or wishes to combine a compact bag with the Sunny map holder. Two main compartments with zipper for camera, glasses and anything else you need at hand. Especially well suited for mounting on the stem.

11x19x9cm, 180g, 2 L

0292 CS

MINI ADAPTER FOR CABLE LOCKS

Universal fixture for easy retrofitting of cable locks. The Mini adapter is mounted via the stainless strap onto frames, handlebars or seat posts Ø 15-60 mm. The associated retrofit lock holder can be attached to cable locks Ø 6-10 mm.

0501 B

TWIN ADAPTER FOR U-LOCKS

Retrofit kit for Ø 12mm U-locks. The coupling can be directly mounted on the steel U-frame. Easy mounting with two stainless straps which makes it suitable even for heavy locks up to 2kg. Fits frames Ø 15-60mm.

0500 A

BOTTLE KLiCK

The popular Bottlefix alternatively with its own quick-release function. In this way a standard bottle cage can be quickly „clicked“ onto the bike and released again within seconds. Can be used for all common bottle cages. Miniadapter included. max. 1kg.

1650

SPOKEY

The classic Spoke nipple wrench. A must-have in any toolbox, at home and on the road. 4,5x4,7cm, 10g

3,25mm red
(Ø spokes 2,1mm max.)

2195

3,40 mm black
(Ø spokes 2,1mm max.)

2196

SPOKEY PROFESSIONAL

Professional variant with a twin layered metal insert that doubles the contact surface between tool and nipple. Especially well suited for sensitive aluminum nipples, since it allows higher torques with less contact pressure. 4,5 x 5cm, 12g

3,25mm red
(Ø spokes 2,1mm max.)

2195PRO

3,40 mm black
(Ø spokes 2,1mm max.)

2196PRO

3,25mm blue
(thicker spokes, Ø 2,34mm max.)

2193L

Spoke nipple wrench **KLiCKfix** SPOKEY

Rixen & Kaul's very first product is a veritable design classic and has been a favorite among riders and mechanics since 1984.

The hardened steel insert is manufactured with the highest precision and grips the spoke nipple on all sides.

UNIVERSAL – FIXATIONS FOR ALL CARRIERS

SPECIAL – SYSTEM SOLUTIONS

fix

permanent mounting

- + economic solutions to fix accessories on bikes
- + Baskets & boxes are safely fixed on bikes via screw fastening
- + accessories are permanently fixed on bikes

For cyclist who want to leave their accessories permanently mounted on the bike.

 only detachable by the help of tools

UniKlip

adjust width once, fits all racks

- + 8-16mm carrier diameter
- + 9-16cm carrier width
- + Works with integrated batteries
- + Compatible with spring clamps
- + Usable on V-shaped racks
- + Set down – turn levers – done !

Allows mounting accessories on a wide variety of racks and e-Bikes.

 Integrated anti-theft latch

KorbKlip

adjust width once, fits all racks

- + 10-16mm carrier diameter
- + 9-16cm or 9-40cm carrier width (depends on basket) extra large baskets are especially well suited for front racks
- + Works with integrated batteries
- + Compatible with spring clamps
- + Usable on V-shaped racks
- + Set down – turn levers – done !

Allows mounting baskets on a wide variety of racks and e-Bikes.

racktime®

only for Racktime carriers

- + Bags, baskets and boxes with Racktime Adapter
- + Secure four point fixation on racks
- + Only usable in combination with Racktime racks
- + carrier can also be used for other pannier bags with different hooks or side rails

Perfect solution for bikes with a Racktime carrier – characterized by four holes in their cross braces that the adapter attaches to.

 Retrofit Lock available to arrest the red button

Rackpack

only for RIXEN&KAUL carriers

- + Bags with Rackpack Adapter
- + No extra Adapter on carrier needed
- + carrier can also be used for other pannier bags with different hooks or side rails
- + Only usable in combination with R&K racks: Freerack, Freerack Plus and Rackpacker

Push bag forward to lock the bag onto the R&K carrier. Pull strap for easy release.

GTA

carrier with GTA Adapter plate

- + combine bags, baskets and boxes that have the GTA coupling easily with panniers that have the GTA Rail
- + GTA Adapter can be mounted on any carrier up to 145mm width
- + The GTA accessories on top and lateral are combinable or can be used separately

With the GTA adapter plate – any carrier it is converted into a GTA System carrier.

 All accessories on top and lateral are secured by a central key

push forward to lock the accessory

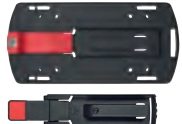

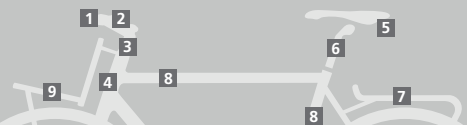

pull strap for easy release

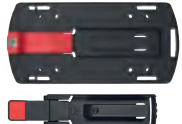

ideal to combine accessories
